## CRACK TRAIN TO COME THIS WAY

Golden State Limited to 'Frisco May Go Through Monett

It is learned from a good source that the officers of the Frisco Rock Island are figuring on making a change in the route of the Golden State Limited, one of the finest trains in the world, whereby it will come through Monett.

This train now goes from Chicago through Illinois and Missouri to Kansas City, thence southwest to El Paso, Texas, where it connects with the Southern Pacific and goes west to San Francisco.

The plan under consideration provides that this route be changed whereby the fast train goes over the Chicago and Eastern Illinois to St. Louis, thence southwest over the Frisco, where a connection will be made with the Rock Island and then on to El Paso.

The Santa Fe has just cut ten hours off their fast service to the Pacific coast and it is up to the Rock Island to meet this change. The proposed route through Monett is much shorter than the one now taken and would no doubt have been selected long ago except from the fact that the tracks of the Frisco have not been in proper condition for such speed as is used by this crack train. The Frisco, however, is now spending millions of dollars in bringing its tracks up to a higher standard and it is believed it will be practical to make this important change.

It is a pity we see so many of the people who are sick and suffering from the effects of a weak stomach, weak nerves, and aching heart and kidneys. That is all wrong! A weak stomach means weak stomach nerves, and this is also true of the heart and kidneys. The weak nerves are instead crying out for help. This explains why Dr. Sheep's Restorative is promptly helping Stomach, Heart and Kidney ailments. The Restorative reaches out for the actual cause of these ailments—the failing "inside nerves." Anyway test the Restorative 48 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by all dealers.

## A CURIOUS MAIL ROUTE

One of the most remarkable mail routes in the world is that in which a letter journeys in going from Beebe Plain, Vt., to Beebe Plain, Quebec, Canada. While the two offices are within ten feet of each other—are located in the same room, in fact—a letter mailed from one office to the other must make a trip of 294 miles—sixty-seven miles in Canada and the remainder in the United States.

The plain, old fashioned store building which is situated on the international boundary line contains both the United States and Canadian forces. There are separate entrances to each, but both are in the same room, have the same lobby and there are no partitions to mark the division between the domain of Uncle Sam and the possession of King Edward.

"If you mail a letter from the Vermont side addressed to the Quebec side," says the postmaster, "it goes from here to the junction, then to Newport, then to White River Junction and back to Lennoxville, Quebec, over the Boston & Maine. There it is transferred to the Grand Trunk and goes to a southbound mail pouch and comes to Stanstead Junction and then back to this same building, a distance of 294 miles.

"If we wish to mail a letter from the American side to Derby Line, it must go White River Junction and then come back over the official route."

## Why?

From a small beginning the sale and use of Chamberlain's Cough Remedy has extended to all parts of the United States and to many foreign countries. Why? Because it has proved especially valuable for coughs and colds. For sale by all druggists.

The ladies of the M. E. Church will sell home made bread, pies and cakes Saturday, September 25.

## TEN YEARS OF SERVICE

The Weekly Times Passes Its Tenth Mile Post This Week.

With this issue of the WEEKLY TIMES it begins the eleventh year of its existence as a newspaper. There have been many changes during the past years, many ups and downs, but through it all the TIMES has made a slow but gradual advance. The paper was started by the present owner, first as a seven column folio, then advanced to a five column quarto, then later to a six column quarto with patent inside, then to an all-home-print. During the past year, in addition to our weekly edition, we have been issuing a six column folio daily.

The upward climb has been a hard one and has made by steady and persistent effort coupled with much self sacrifice on the part of the proprietor and his family, but the TIMES has now reached a point where, with the active cooperation of the progressive people of the city we can hope for better results in the future. It is the purpose of the proprietor to make a number of improvements during the coming year provided the patronage justifies the outlay.

We thank our friends for their confidence and support during the past and promise them the best possible service in the future.

## A Hurry Up Call

Quick! Mr. Druggist—Quick! A box of Bucklen's Arnica Salt—Here's a quarter—For the love of Moses, hurry! Baby's burned himself, terribly—Johnny cut his foot with the axe—Mama's scalded—Papa can't walk from piles—Billie has boils—and my corns ache. She got it and soon cured the whole family. Its the greatest healer on earth. Sold by A. H. Cox & Co.

Capt. M. F. Smeltzer of Van Buren predicts that the strawberry crops of Missouri and Arkansas will be very light for the next two years. The drouth of the past summer has ruined many fields in both states and it will take two years at least to replace them. He says that one trouble next spring will be in finding plants for resetting the fields, and the chances are that the prices of plants will be high. —Rogers Democrat.

**Special Sale of Beef at Saxe's Popular Market Saturday and Sunday, Sept. 25 and 26.** If you don't know what that means, take a piece of money and go and find out by calling for special sale beef.

Ladies! Turn in when you see this sign "Fly's."

Because the dry weather hurt the tomato crop so severely this summer a number of farmers are talking of dropping in next season. They will make a big mistake if they do. There is no crop that such a drouth would not have affected and they will find few crops that will pay them better here in a good year. It will not pay to tie all of your farm up in apple orchard and the more diversified crop you can raise, the better it will be for your bank account in the long run. Instead of reducing your tomato acreage next year it would be better to double it. —Rogers Democrat.

## Pay Your Taxes

The county tax collectors will be at the city hall to collect taxes from Monday morning until Friday evening. J. M. DAVIDSON, County Collector. 62 12

## TOWN DRY

Fayetteville, Ark., Sept. 23.—Unless relief is speedily secured Fayetteville's already very serious water proposition will become absolutely acute. The source of the city water supply is White river, which has, because of the protracted drouth become almost dry. The water is now so low in the river that it is almost impossible to pump into the tank. Only a week or two longer and if relief is not secured the town will be without water.

A well is now being drilled but at the depth of one hundred feet a very insufficient supply of water has been struck. The city will continue to drill as it is thought an abundant supply will be found deeper down.

Mr. and Mrs. Arthur Turner are preparing to move to Joplin soon.

Mr. Nobody.

## GOV. JOHNSON IS BURIED

Minnesota Executive Rests Beside Mother in St. Peter

St. Peter, Minn., Sept. 23.—The body of Governor John A. Johnson was buried in the family lot in Green Hills Cemetery here this afternoon in a grave adjoining that of his mother. The body was brought here from St. Paul on a special train, which arrived at 1:45 p. m.

The funeral cortege, escorted by State militia and representatives of State and civil organizations, proceeded to the Presbyterian Church, where the body lay in state and was viewed by hundreds of citizens of St. Peter for an hour and a half before the religious services were held. The Reverend R. E. Clarke read the sermon, using the text, "Know ye not that a Prince and a great man has fallen this day."

The funeral was attended by hundreds of distinguished men from Minnesota and other states. Brief services were held at the cemetery and the local company of National Guard fired a salute as the casket was lowered.

In announcing his text, Mr. Clarke said that no more expressive couplet than a prince and a great man could be used to characterize Governor Johnson. He spoke of the great loss to the state and to the nation in the death of Governor Johnson and closed with a glowing personal tribute to his character and personality, as well as civil achievements.

sonality, as well as civil achievements.

The floral tributes were taken to the church and cemetery by the wagonload. The various state, municipal, civil and fraternal organizations, as well as individuals, contributed set pieces and bouquets.
